TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- React.js
- Python
- Pandas
- NumPy
- Scikit-learn
- Matplotlib
- Git & GitHub
- VS Code

STRENGTHS

- Quick Learner
- Problem Solver
- Time Management
- Team Player
- Attention to Detail

LANGUAGES

- Hindi – Native
- English – Professional Proficiency

AWADHESH SINGH

FRONTEND DEVELOPER | DATA SCIENCE STUDENT

Passionate about building responsive web applications and solving real-world problems using code and data. Skilled in creating clean, user-friendly interfaces and leveraging data-driven approaches to deliver impactful solutions. Eager to learn, grow and contribute to innovative projects.

EDUCATION

Bachelor of Technology (B.Tech)

Computer Science and Engineering (CSE)

Sam Higginbottom University of Agriculture, Technology and Sciences

2024 – 2028 | 3rd Year (5th Semester) | Started: Sep 2024 | End: May 2028

PROJECT

Spam Detection using Machine Learning

- Built a machine learning model to detect spam messages using NLP and classification algorithms.
- Performed data preprocessing, feature extraction and model evaluation.
- Achieved high accuracy using Multinomial Naive Bayes classifier.
- Tech Stack:** Python, Pandas, NumPy, Scikit-learn, NLP

CERTIFICATIONS

Python for Data Science – IBM (Coursera)
Offered by: IBM

Data Analytics with Python
Offered by: NASSCOM (FutureSkills)
